Sijo Joseph

Product, UX & AI Designer

Bengaluru, India | +91 81049 76541 | sijojoseph7509@gmail.com | sijo.work | linkedin.com/in/sijodesign | github.com/sijojoseph7509-a11y

PROFESSIONAL SUMMARY

Product, UX and AI designer and M.Des student in Design for Retail Experience at NID Bengaluru, with a Bachelor's in Fashion Design and 2+ years as a visual merchandiser at Marks & Spencer and Vero Moda. Takes products from user research to tested, working prototypes, designs how AI features behave and where they stop, and builds with AI coding agents. Seeking product, UX and AI design roles.

EDUCATION

Master of Design (M.Des), Design for Retail Experience, National Institute of Design (NID), Bengaluru | 2025 – 2027 (expected)

Bachelor's in Fashion Design, Amity University Mumbai | 2018 – 2022

SKILLS

UX & Product: User research, usability testing, journey mapping, personas, user flows, information architecture, interaction design, wireframing, prototyping, UI and visual design, design systems, accessibility (WCAG), product strategy, service design

AI & Prototyping: AI UX, LLM product design, AI agent design, human-in-the-loop workflows, AI guardrails and testing, Claude Code, Codex, ChatGPT, Gemini, HTML, CSS, JavaScript, Next.js, PostgreSQL, Three.js, WebXR

Tools: Figma, FigJam, Adobe Photoshop, Adobe Illustrator, Blender, SketchUp, Framer, Notion, Microsoft Excel

Languages: English, Hindi, Malayalam

DESIGN PROJECTS

Handovo, AI operations layer for retail stores | Pilot build, 2026
Designed and built a working pilot that turns a store manager's goal into tasks on staff phones, with rules that limit what the AI may do alone; 0 of 8,019 rule checks broken in testing (Figma, Next.js, PostgreSQL, Claude LLM).

Syntra, Interactive perfume finder for ZARA | NID, team of 3, 2026
Designed the kiosk's interaction and screens, nine 360-degree VR worlds (WebXR, Meta Quest 3) and an AR ticket (MindAR), iterating after watching visitors use it; 66 tickets printed at the exhibit.

Carekin, Medication coordination for family caregivers | Self-initiated, 2026
Sole designer of an Android app and WhatsApp flow, from research to an accessible Figma prototype (64 px targets, 4.5:1 contrast, Malayalam, Hindi and English).

Ekmaati, Brand identity and packaging for the clay Ganesh idols of Pen | NID, 2026
Created the name, mark, colour and type (14 typefaces explored) and a temple-shaped box that folds with no tape or plastic, prototyped 3 times by hand.

sijo.work, Interactive 3D portfolio | 2026
Designed and built a responsive 3D room with a macOS-style desktop that presents 4 case studies, in Three.js with AI coding agents.

WORK EXPERIENCE

Senior Store Visual Merchandiser, Vero Moda India | Mumbai, India | Oct 2024 – Jul 2025

- Redesigned the store layout to improve customer flow, raising customer satisfaction ratings; learned to design around how people actually move, browse and decide.
- Analysed sales data and customer feedback to find and fix experience problems, a habit of letting evidence lead design decisions.
- Increased customer traffic with window displays for new products and promotions, and kept signage clear so shoppers could find offers on their own: clear communication and wayfinding.
- Worked cross-functionally with store managers to roll out displays, promotions and layout changes on tight timelines, delivering with the team at speed and accuracy.

Visual Merchandiser, Marks & Spencer | Mumbai, India | Jun 2022 – Feb 2024

- Managed visual merchandising for stores across multiple regions and standardised mannequin styling between them: keeping a brand consistent at scale, the discipline behind a design system.
- Trained and led store teams through seasonal launches and new store openings, explaining design intent to the teams and stakeholders who carry it out.
- Created displays and styled looks for brand shoots, celebrities and high-profile customers, turning each brief into a clear visual result.
